2 Ayco intends to fulfill its commitment for newly created jobs by December 31, 2021 through a combination of growth and the transfer of existing employees from locations outside of the Town of Colonie. However, a number of factors could influence the strategy to consolidate existing locations, including the economy, technology changes, business growth, real estate values and Ayco’s ability to recruit and retain required talent.

3 The estimated payroll is based on the assumptions outlined in Part VI.

7) Discuss how the project will benefit the Town of Colonie and its residents. See Addendum A for particular selection criteria that the Agency will use in evaluating this project and incorporate relevant information regarding the selection criteria into your response.

   The project – fit-up of a LEED certified, highly-efficient headquarters building – aligns with local planning and development initiatives by supporting the revitalization of a long vacant property. As an employer in the Town of Colonie since 1971, this project reaffirms Ayco’s commitment to providing full-time, part-time, seasonal, contingent, and internship employment opportunities in the Town of Colonie.

**PART IV. DATA REGARDING PROPOSED PROJECT**

b) Is there a likelihood that the Company, but for the contemplated financial assistance from the Agency, would be unable to undertake the project? Yes

Please explain why the Agency should undertake the project: Project utilizes 20 acres of commercial acreage left vacant approximately 19 years ago. Creates additional well-paying jobs and is consistent with Boght Road GEIS.

c) Does the project include facilities or property that are primarily used in making retail sales of goods or services to customers who personally visit such facilities? No

If yes, what percentage of the cost of the project will be expended on such facilities or property primarily used in making such retail sales? N/A ___%

If greater than 33.33% please respond to the following:

Is the project a "tourism destination" that is likely to attract a significant number of visitors from outside the economic development region in which the project will be located? N/A

If yes, please explain: ____________________________________________________________

A "highly distressed area" is (i) an area designed as an economic development zone pursuant to Article 18-B of the General Municipal Law; or (ii) a census tract or block numbering area (or census tract or block numbering area contiguous thereto) which, according to the most recent census data, has (x) a poverty rate of at least 20% for the year in which the data relates, or at least 20% of households receiving public assistance, and (y) an unemployment rate of at least 1.25 times the statewide unemployment rate for the year to which the data relates? N/A

d) Are there facilities within the State of New York that will close or be subject to reduced activity as a result of the project? Yes, Ayco’s long-term strategy is to consolidate current Capital Region locations in phases over a number of years. Exact timing is dependent on business conditions, as well as existing lease and ownership obligations.

If yes, please indicate whether the project is reasonably necessary for the Company to maintain its competitive position in its industry or to prevent the Company from moving out of New York State: This project is important to Ayco’s long-term growth strategy. Consolidating locations allows associates to better collaborate and will improve client service by realizing greater efficiencies. Additionally, the current office space footprint does not accommodate projected job growth. The alternative would be to move future jobs to regional locations outside of NYS.
e) Will the project preserve permanent, private sector jobs or increase the overall number of permanent, private sector jobs in the State of New York? Yes

If yes, please explain: Project is for a new corporate headquarters that retains current jobs and supports future job growth.

9) Project Construction Status
